Signature of President (or Agent)

Excerpt from the Capital Improvements and Endowment Program approved by the Georgia Baptist Convention beginning 2007 as administered by the Executive Committee of the Baptist Convention of the State of Georgia and Dr. J. Robert White, Executive Director:

... CIEP scholarship funds, whether provided from income and earnings of the endowment funds or from direct scholarship funds, shall be disbursed with the following in mind: Consideration should be given to the high cost of providing a quality education for Georgia Baptist students who wish to attend a Georgia Baptist college and scholarship funds should be provided in an effort to assist all Georgia Baptist students who qualify for CIEP scholarships. Georgia Baptist students who attend or will attend a Georgia Baptist college shall make application to the college by completing the Application for CIEP Scholarship... A separate application for scholarship must be made for each academic year. Scholarships provided to a student will not exceed the amount needed for tuition for one academic year. All scholarship funds will be disbursed to the colleges for the benefit of approved students. Scholarship funds will be paid from income and earnings of the endowment funds for scholarships or from direct scholarship funds. The Georgia Baptist Foundation will notify each college of the amount available for CIEP student scholarships for each academic year. Any funds available for scholarships not used by a college in any academic year will be added to the corpus of the endowment funds for scholarships held for that college.
