

STUDENT HEALTH  
SERVICES

Price List for the  
2012-2013 Academic Year

Patients' accounts are billed for physician services and screenings through the Shorter University Business Office or patients may pay in the clinic by cash or check made payable to Shorter University with "Student Health Services" indicated on the "memo" line. SHS does not file insurance claims. The short list below is not inclusive of all services available in Student Health Services. For further information, please call 706-233-7278.

Splints and slings	No charge	Suture removal	\$10.00
Wound care	No charge	Self-care visit	No charge

Shorter University employees are encouraged to see their personal primary care physicians whenever ill or injured, but occasionally an employee may need the services of SHS during the office hours. In such a situation, if there is a charge applied (see above), they are asked to pay for any services rendered either with cash or check made payable to Shorter University. Employees are discouraged from visiting our doctors on Wednesday afternoons as the physicians' time is limited to 2 hours for the students. Employees may use the self-care center for over-the-counter medications that are available for check out at no charge. Appropriate form(s) must be completed and signed for services to be rendered to students and/or staff, as appropriate.
